

GOAL OF THE GAME

The Clue Giver plays Clues to help the Guessers find the Secret Card.

GET READY!

Choose one player to be the **CLUE GIVER**. The other Players will be the **GUESSERS**. The Clue Giver must then do the following:

1. Shuffle the deck and place it face down on the table to form a **DRAW PILE**.
2. Pick up 12 cards from the pile and secretly look at 1 of them. This will be the **SECRET CARD** that must be found by the Guessers!
3. Shuffle the 12 cards in your hand, then **LAY THEM OUT ON THE TABLE**, face up, in a 4 x 3 grid pattern.
4. Draw the top 5 cards from the draw pile to form a starting hand. These will be the **CLUES** you can give.

SimiLO Wonders

HOW TO PLAY

Similo is a cooperative game: All players **WORK TOGETHER** to identify a **SECRET CARD** using a series of Clues. The game is played over 5 rounds.

1. PLAYING CLUES

The Clue Giver plays 1 Clue from their hand to help the Guessers find the Secret Card. There are 2 kinds of Clues:

REMOVE CLUES - cards played **HORIZONTALLY**; these Clues have something similar to one or more cards the Guessers should **REMOVE**.

KEEP CLUES - cards played **VERTICALLY**; these Clues have something similar to one or more cards the Guessers should **KEEP**.

Clues must be played next to the cards on display. All Clues stay in play until the end of the game.

COLOSSEUM

PETRA

STATUE OF LIBERTY

Example: The Secret Card is the **COLOSSEUM**. You could play **PETRA** as a Keep Clue, to suggest to the Guessers that the wonders to **KEEP** are buildings, made of stone, or part of the New 7 Wonders of the World. Or, you might play the **STATUE OF LIBERTY** as a Remove Clue, to point out that the wonders to **REMOVE** are statues, made with metal, or built in modern times.

HOW TO GIVE CLUES

The similarities between the wonders depicted on the Clues and those on the cards to remove (or to keep) are only limited by the Clue Giver's imagination... it will be up to the Guessers to understand what the Clue Giver is trying to suggest!

You may play the **EIFFEL TOWER** if you want to point the Guessers to iron structures, modern constructions, or cards with a night sky in the background.

You may play the **GREAT PYRAMID OF GIZA** if you want to point the Guessers to tombs, African landmarks, or the Seven Wonders of the Ancient World.

You may play **BOROBUDUR** if you want to point the Guessers to Buddhist monuments, stepped structures, or sites used for pilgrimage.

You may play **HIMEJI CASTLE** if you want to point the Guessers to feudal fortresses, defensive structures, or buildings associated with nobility.

THE CLUE GIVER CANNOT SPEAK, MAKE GESTURES, NOR USE ANY OTHER METHOD TO COMMUNICATE WITH THE GUESSERS: THEY CAN ONLY PLAY CLUES ON THE TABLE.

Right after playing a Clue, the Clue Giver draws 1 card to **REFILL THEIR HAND** up to 5 CLUES.

2. GUESSING

The Guessers analyze the Clue and discuss **WHICH CARDS TO REMOVE**, using the information the Clue Giver gave them.

ATTENTION! If the Guessers **REMOVE THE SECRET CARD** at any point during the game, all players **IMMEDIATELY LOSE!**

EXAMPLE: The Clue Giver plays the **TAJ MAHAL** as a **REMOVE CLUE**. The Guessers look at the cards on the table and begin to discuss. They think that the wonders to remove could be monumental tombs or buildings made of white stone. They decide to remove the **MAUSOLEUM AT HALICARNASSUS**, since this card seems to have the most in common with the Taj Mahal.

The number of cards to remove varies from round to round:

ROUND	1	2	3	4	5
N° OF CARDS TO REMOVE	1	2	3	4	1

If **NONE** of the cards removed by the Guessers is the Secret Card, you can start the next round. If **THE LAST CARD REMAINING AT THE END OF THE 5TH ROUND IS THE SECRET CARD**, **ALL PLAYERS WIN!**

HOW TO PLAY WITH DIFFERENT DECKS OF CARDS

There are different versions of Similo! If you have more than one, you can combine **TWO DIFFERENT DECKS OF CARDS** to create new and interesting strategies!

Just choose two versions of Similo and use one as the **GUESSING DECK (A)** and the other as the **CLUE DECK (B)**.

RULE CHANGES

To play a game with 2 decks, follow the regular game rules with the following changes:

1. When you pick up the 12 cards to lay out on the table, use the **GUESSING DECK** (deck A, for example: **SIMILO: HISTORY**). After this, this deck won't be used for the rest of the game.
2. Whenever you must **DRAW CLUES** (either when forming your starting hand or when replenishing it at the end of each round), always use the **CLUE DECK** (deck B, for example: **SIMILO: WONDERS**).

ADVANCED VARIANT

If you want to further increase the difficulty of the game, try playing with the **ADVANCED VARIANT!**

This variant plays just like a regular game, with one exception: when the Clue Giver plays Clues, they can only play **REMOVE CLUES**.
