Surfin' Cats is a competitive card game of hand management, push-your-luck, and deck building where each round you'll pull off tricks and ride a wave to earn flow points. You'll need to optimize your deck for greater control over your paddle and reduce the risk of wiping out.

Designed for players who enjoy hand management, pushing their luck for bigger rewards, and building decks with a long-term strategy. A great game for cat and surf lovers – the art transports you to a gnarly 80s cat beach where only radical tricks matter.
