Bonbon is a secret betting and pattern-building game where, chocolate piece by piece, players fill a large box of bonbons; creating groupings, majorities, or specific topping compositions, all in the service of winning the secret bets they place throughout the game.

An intuitive game with simple rules that can serve as a first experience for any new player. Ideal for families and all ages, as its components use only symbols no text. Bonbon features thoughtful design with irresistible components that make players feel like true chocolatiers.
